A WHOLE NEW WORLD FOR THE SUPER 9 CELEBRATION

WELCOME TO THE 9TH PLATINUM AUCTION AT BONA BONA GAME BREEDERS

Dear friends, fellow breeders and honoured guests

Welcome to our home, to our farm and to what I believe is the most meaningful Platinum Auction we have ever hosted. As you turn the pages of this catalogue, know that you hold more than a guide to today's lots. You are receiving an invitation to be part of something bigger than any one of us.

We step into 2026 as Bona Bona Wildlife, a name that carries our deepest conviction: That wildlife breeding, ethical hunting, ecotourism and community upliftment belong together as one living system. Our Circle of Conservation is not a slogan. It is the way we live and farm, the way we think and the way we build a future worth inheriting.

We trust you'll get a chance to spend some quality time with us this weekend. Meet the people who work here. Sit with your family at the lodge and breathe in the stillness. You will feel the circle turning.

Every lot in this catalogue tells a story of careful selection, scientific rigour and DNA-verified pedigrees. Behind every animal on sale are years of patient, purposeful work. When you bid today, you are not only acquiring extraordinary genetics. You are investing in conservation that sustains itself, in communities that grow stronger and in an industry that proves, year after year, that excellence and stewardship go hand in hand.

I am proud that our neighbours are our partners. I am proud that our charity lots help fund schools and that the meat from our operations feeds families. I am proud that the decisions we make here will shape what our grandchildren inherit. South Africa holds something incomparable in the world. Within one country we offer unmatched diversity of species, landscapes, lodges and experiences. It is our privilege and our responsibility to protect this gift.

To our guest sellers, our loyal buyers, the excellent Wildswinkel auction team, old friends and first-time guests, thank you for being part of our circle of friends in wildlife. To the families who have made the journey, welcome to a weekend of laughter, good food and the kind of friendships that make this industry so special.

The circle turns. Conservation grows. Community thrives. Let us make this a day to remember.

Warmest regards

Pieter Ernst Jnr
The entire Ernst family and all of us at Bona Bona Wildlife

OTHER INFO

With no relation to Rapella, Atlas has been powerfully used to introduce performance and genetic strength into our herds over the past three seasons. Now his first progeny already provides clear proof of exceptional vigour and outstanding horn growth. Sharing the same maternal line as 59 ⅛" Alloy and 55" Savuti, we ascribe tremendous value to his genetic composition, making the decision to let him go a particularly difficult one. A truly superb, pure Southern breeding bull with legacy, consistency, and proven performance.
